Re: **HERO** Teacher Award for 2002-2003

The MAHPERD organization would like to recognize deserving Health Enhancement (Physical Education & Health) teachers around the state of Montana with your help. The award is for outstanding teaching performance and school involvement. You are the nominating and awards committee.

This special recognition is the **HERO** award, which stands for **H**ealth **E**nhancement **R**ecognition of **O**utstanding Teachers.

You may nominate as many deserving Health Enhancement professionals in your building or district as you wish. We have no limitations for deserving professionals; however, any teacher given the award last year is ineligible this year.

To nominate a teacher, please e-mail their name, school name, school address, phone number and, if possible, their email address. Please send the information to: schesterfield@helena.k12.mt.us

Thank you for your help in giving quality teachers the recognition they deserve.
